## **DETAILS OF EXPLANATORY NOTES**

### **OPENING BALANCE, FINANCING GAP AND BUDGET SIZE**

**EN-X:** N3,646,643,790 represents the Opening balance as part of the recurrent component of the closing balance of year 2019 which is brought forward to year 2020.

**EN-Y:** The State is proposing a balanced budget. Consequently, any form of deficit accumulation is being avoided.

**EN-Z:** The total budget size of the State is N82,229,070,760

### **ASSUMPTIONS**

**EN-A:** Oil price plunged below \$57 per barrel as triggered by weakling oil demand in the oil market. Osun, being an integral part of the country with heavy dependent on revenues from oil decided to be conservative by using \$20 per barrel which is below the Federal Government benchmark \$25. This will reduce the risk of revenue shocks should the price of crude oil stay below the \$25 benchmark of the Federal Government in relation to the uncertainties in the current market realities.

**EN-B:** The State decided to be conservative by using 1.7 mbpd instead of 1.9 mbpd used by the Federal Government. This is largely due to disruption of global supply / output chains resulting in weak demand and low commodity prices and international ban. The conservative benchmark of 1.7mbpd would afford the State a level of realistic budget should the production level fall below the Federal Government estimate of 1.9mbpd.

**EN-C:** Exchange rate increased from N305 to N360 due to increasing pressure on foreign reserve as crude oil sales receipt declines and macroeconomic outlook worsens. This necessitated the exchange rate adjustment by the Central Bank of Nigeria. Consequently, it is effected in this revised budget.

**EN-D:** GDP Growth rate is projected to reduce as a result of shocks to Growth components thereby the growth rate is expected to decline from initial forecast value of 3.16% to -4.42%

**EN-E:** The projected higher inflation rate from 11.7% to 14.13% is as a result of low economic activities caused by closure of factories across the globe, Nigeria inclusive, thus, leading to scarcity of goods and thereby causing persistent increase in price across board.

**EN-F:** Reduction in the Mineral Ratio from 35% to 27% was as a result of low economic activities which negatively affected the gross revenue of the Federation

### **REVENUE FROM FAAC**

**EN-H1:** As a result of the global oil price crash and reduction in the allotted size of oil production in barrel per day, the projected revenue through FAAC is reduced drastically from **N39,700,000,000** to **N21,853,265,710**. Also, the weak economic activities across the Federation is another major factor responsible for reduction in FAAC.

**EN-H2:** The Government share of VAT is expected to reduce as a result of long period of lockdown which reduced the economic activities of all organizations (Private and Public) across the country. Consequently, the expected revenue from VAT is reduced from **N13,500,000,000** to **N12,475,764,440**

**EN-H3:** The price of crude oil crashed sharply (from initial projected price of \$57 to \$20 per barrel) which reduced expected income from crude oil drastically. Consequently, no provision is made for revenue through the excess crude oil account.

**EN-H4:** The reduction in key economic variables such as price of oil production, price of crude oil, among others necessitated a downward reduction of revenue from other component of FAAC (such as Exchange rate gain difference, Distribution from goods & valuables, Additional revenue from solid minerals, Excess bank charges and Forex equalization account) downward from **N1,500,000,000** to **N400,000,000**

**EN-H5:** Revenue from derivation is not applicable to the State of Osun since the State is not among those states covered by derivation.

## **INTERNALLY GENERATED REVENUE**

**EN-G:** The internally generated revenue is seriously affected by the long period of lockdown which prevented businesses and offices from effective operations, intra and interstate movement restriction and international movement restrictions. All these serve as hindrances to government ability to generate revenues internally. The State Government is also proposing between 3-4months tax holiday to SMEs in the State as a relief towards the damage to the economy by COVID-19 pandemic. Therefore, the projected IGR is reduced from **N30,828,758,440 to N15,082,345,490.**

## **CAPITAL RECIEPTS (FOREIGN AND DOMESTIC GRANTS)**

**EN-I:** The projected Foreign (External) grants from donors increased from **N6,056,283,020 to N9,422,217,320** due to extensive efforts of the government in exploring all available opportunities to augment the regular sources of income which have become dwindling due to COVID-19 pandemic shocks. ## FINANCING & FINANCING GAP

**EN-37:** To avoid accumulation of deficit, the state is not planning to contract any loan to finance the amended budget

## PERSONNEL

**EN-0:** There is a decline in the personnel budget due to the fact that the state has no plan to recruit as a result of paucity of fund. Meanwhile, the State decided to use the actual cost spent on personnel for the first 3 months (January to March 2020) and then, prorated the amount for the remaining 9 months to make a whole year, which consequently lead to expected value below the initially budgeted. The adjustment affected the Personnel components such as Salaries and Wages, Allowances, Social Contributions and Social Benefits.

The sum of **N265,916,080** is the additional budgeted allowance to frontline health workers from April 2020 to December 2020

Therefore, the sum of **N3,000,000** allocated to travel and transports in the health sector is tagged COVID-19 responsive

**EN-2:** The total sum of **N1,000,000** is earmarked as telephone charges for extensive communication in health sector. This is essential for COVID-19 and other health management activities.

**EN-3:** In response to new realities created by COVID-19 pandemic, Governance, Administration and General Businesses are moved from physical to virtual operations, which require reliable, efficient and larger volume of internet access.
